

**Mini Track Biemission Module 24/48V**

code LT9403/01

**PRODUCT DESCRIPTION**

The Mini Track track is an electrified Class III-SELV track with two circuits: one for a low voltage 24/48V power supply and the other for the DATA BUS (DALI or 1-10V). The power supply voltage can be 24V or 48V, not exceeding 15°, depending on the models of lighting fixtures chosen. White and black finishes are available in the ceiling and suspended versions, while only the black finishing for the recessed option. The lighting fixtures can be used on both 24V or 48V electrified tracks, except the microfile family that requires only 24V. DALI dimmable spotlights are equipped with non-polarized converters that allow to be installed in any direction, and Hot Plug technology for safe insertion with live track.

**PRODUCT SPECS**

Installation method	Suspension
Finishing	White
Power supply/transformer	Not included
Dimension	L26Wx3000Hx27 mm
