

ICEMENTI Ceiling outdoor panca

code IC0510

PRODUCT DESCRIPTION

Floor outdoor fixture. MATERIAL: Lightweight cement, made of a mixture of selected inert materials, lightweight fillings and additives added to improve its mechanical properties. Cementlight® is a material created to produce extremely low weight non-structural architectural elements, up to one-third the weight of traditional cement. This characteristic allows simple and easy installation of any products when compared to traditional cement: it does not require demolition and greatly reduces the structural load on buildings. It is suitable for indoor and outdoor applications, it is water-repellent and can be integrally colored.
